About Principality Healthcare

Our company is the ANZ operations for several USA, UK and European Original Equipment Manufacturers. Exclusively representing these brands and their products across Australia and New Zealand, we are the single point of contact for over 15 international market leaders of medical equipment.

We are an Australian small business doing big things in Healthcare, with clinically proven products that focus on best outcomes for patients and practitioners alike. Our network of Authorised Service Contractors in addition to our own resources make delivery of Government contracts possible in all states and territories in our region.

In utilising our portfolio of Products and Services you are assisting several small businesses across NSW and adopting the best medical equipment available.

DISPOSALS

Principality Healthcare can assist to remove unwanted / de-commissioned or retired medical equipment right across NSW Health with the assistance of our Authorised Service Contractors via the CF820 Awarded disposals option.

Supporting to help reduce waste to landfill and responsibly dispose of medical equipment items which can include Trolleys, Beds & Accessories, Wheelchairs, Transfer Aids, Scales, Mobility Aids, and miscellaneous furniture items. Simply Select 'Principality Healthcare' through the Oracle system and enter the items for collection into the work order stating location / room / ward where applicable. Rates for this service are available through ProcurePoint or please email us at info@principalityhealthcare.com.

Authorised Service Contractors can be verified through ProcurePoint or contact us for more information. Help us to help your facility de-clutter and reduce waste to landfill. All equipment items are assessed, re-purposed and sent to places in need where possible.

Equipment for disposal must be clean and with any related consumables removed, and either bagged or certified decontaminated by the health facility or its agent before removal from the health facility premises.

Equipment will be assessed by Principality Healthcare or its agent in conjunction with health facility (if it wishes) to determine:

- **potential refurbishment of base component(s) for re-use in either a medical or non-medical environment**
- **donation to medical equipment recycling group**
- **donation to not-for-profit community group to be dismantled and components (metals and plastics) recycled.**

At all times, Principality Healthcare will seek to ensure best-practice methods for recycling and disposal of used equipment.

Process Steps:

1. Raise purchase order through the Oracle system same as would any product purchase or rental item.
2. Select Principality Healthcare as the vendor, sub-contractor companies for the tender won't be listed but can have their names mentioned in the description field if known, otherwise Principality Healthcare will manage this.
3. No product is available for disposals. Items are to be entered as free text into the description field (With product code blank), like when entering freight items. Please enter rates and unit quantities as Per the provided table.
4. Submit purchase / work order. This will notify Principality Healthcare to plan for items to be collected and/or make payments to the relevant sub-contractors when the task is complete.

Should there be any enquiries about this process or confirmation of approved sub-contractors be required please contact:
